INTRODUCTION TO INFORMATION RETRIEVAL

Cambridge University Press. Hardcover. Condition: New. 496 pages. Class-tested and coherent, this groundbreaking new textbook teaches web-era information retrieval, including web search and the related areas of text classification and text clustering from basic concepts. Written from a computer science perspective by three leading experts in the field, it gives an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of...

Reviews

This book will be worth getting. Better then never, though i am quite late in start reading this one. Its been written in an extremely basic way which is only right after i finished reading this book through which actually altered me, alter the way i believe.

-- Mr. Enrico Lesch

It in just one of the best ebook. I could possibly comprehended everything using this written ebook. You wont feel monotony at whenever you want of your time (that's what catalogs are for regarding should you check with me).
