Reviews

This composed book is wonderful. It is amongst the most awesome book i actually have read through. You will like the way the author create this publication.

(Miss Fanny Osinski V)

WORD PROBLEMS-DETAILED EXPLANATIONS OF REASONING AND SOLVING STRATEGIES: VOLUME 9 WORKBOOK

CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 74 pages. Dimensions: 11.0in. x 8.5in. x 0.2in. This is the workbook of Volume 9 of the entire set of 12 volumes of word problems solving strategies. If you want to set a solid foundation in math, grasping the techniques on solving word problems is the key to it. This set of books teaches you the techniques and strategies you need to solve word problems. Sample question in this volume: Mom is 4 times as old as Chelsea. If she is 27 years older than Chelsea, how old is each Reasoning and solution: From Mom is 4 times as old as Chelsea, the age of Chelsea is the amount in 1 group and the age of Mom is the amount in 4 groups. The difference between the amounts from the groups is 27. When we find the difference between the numbers of groups, we divide the difference between the numbers of groups into the difference between the amounts from the groups to find the amount in 1 group. The difference between the numbers of groups is: $4 - 1 = 3$. We divide the difference between the number of groups, 3, into the difference between the amounts from the groups, 27, to find the amount in each group or the age of Chelsea: $27 \div 3 = 9$. Chelsea is 9 years old and her mom is 4 times as old as Chelsea: $4 \times 9 = 36$ years old. The techniques and strategies on using the 3 elements formulas to solve both whole number word problems and decimal word problems, on using algebra to solve word problems, and on finding the perimeter and the area of difference plane figures are also covered in this volume. There is more in the volume than what is mentioned. Detailed explanations...
