It is one of the few books intended to teach children the mechanics of music and singing. This series goes well beyond simply encouraging kids to parrot popular songs. In a simple building block type format it covers all the basics. Included are voice exercises, music theory, music notation, ear-training and sight singing. In the final chapters, this volume combines all of the lessons covered and applies them to popular children s songs. By learning basic concepts in Level 2, and then applying them, the student will be able to actually read the notes and sing many other popular children s songs. Maylyn Murphy s Beginning Easy Singing Lesson Level 2 could be the start of something beautiful for your child.
