Forgotten Books, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Modern Farm Building: Being Suggestions for the Most Approved Ways of Designing the Cow Barn, Dairy, Horse Barn, Hay Barn, Sheepcote, Piggery, Manure Pit, Chicken House, Root Cellar, Ice House, and Other Buildings of the Farm Group, on Practical, Sanitary and Artistic Lines During the past twelve years the author has had occasion to design many from buildings, varying from the smallest establishment to those of considerable extent. Amid all the improved ideas about the care of milk which have developed in the past decade, it has frequently been difficult for the architect to formulate conclusions from the mass of data compiled, and the many opinions expressed by those whose work has led them into the scientific analysis of milk and of milk production. In this search for facts, the author has come into contact with the bacteriologist - impressed by nothing but the thing he feels to be necessary to give a sterile sample of milk; with the enthusiastic herdsman - looking to a record for his cow, with no thought but for the quantity of milk; with the veterinary - who cares neither for milk nor milk production, but is concerned only with the health of the animal; and with the farm superintendent - who, perhaps, takes no special delight in milk production or scientific hygiene for his cattle, but whose first thought is for the arrangement that will permit the work to be done in the easiest possible manner. To reconcile these views is the hope which has inspired the following pages. A vain hope, perhaps, but a real one. About the Publisher Forgotten Books publishes hundreds of thousands of rare and...
